Data Analytics Consultant

KPMG

May 2020 - May 2020 (1 month)

A big thank you to KPMG for providing this VI based internship! Really enjoyed my time working on this small project over the summer semester break. Fascinating to see how #data is transformed into usable information, which is then formed as part of a business plan to drive growth.

I found this virtual internship not only useful in terms of applying my knowledge and skills, but learning about the ongoing inside a #management #consultancy firm and that there is more to 'consultancy' than accountants counting their jelly beans.

The information, task requirements and tutorial videos are very helpful. #Learning doesn't stop after final exams.
